

Who are Eastcoast Fireworks?

Eastcoast Fireworks exploded into life in 1999 by its founder Simon Osborne Pyrotechnician and EPA Approved Handler of Pyrotechnics who is also the Captain of Rural Fire Service.

As a division of Rural Fire Service Ltd, Eastcoast Fireworks, provides professional fireworks displays that specialises in producing unique firework and pyrotechnic displays nationwide for wedding receptions, funerals, corporate parties, private parties, community events, festivals, carnivals, and school events.

Entertainment Services

We have a passion and experience in staging fireworks displays from a simple salute to signal the departure of the bride & groom to large scale corporate events.

Our expertise in the wedding fireworks area has become so highly recognised that many venues recommend our wedding fireworks services to their clients in the knowledge that they will be receiving excellent service and true value for money.

Each display is designed meet your needs where these are appropriate to the firing site and can be accommodated by the available budget to compliment the following events:

- Carnivals or Festivals
- Promotional Events
- Rock concerts
- Sporting events
- Guy Fawkes Bonfires
- Christmas Functions
- New Year's Eve
- Birthdays
- Engagements
- Weddings
- Memorial Services
- Religious Events
- Opening ceremonies
- Closing ceremonies

East Coast FIREWORKS

Professional Fireworks
Display Services for

Weddings

or any other
Special occasions

Your Special Day

Whether you want to have an impressive twenty-minute display during the evening, a few colourful shells bursting in the sky over your heads or an archway of fountains lining your route as you depart...

Eastcoast Fireworks can provide a night to remember. Fireworks are a stunning way to give a Bride and Groom a fantastic send-off.

They can also be a major feature of the evening's celebrations, punctuating the festivities to provide a spectacular display that guests will be talking about months later.

Surprise Service

If you want your wedding fireworks to be a COMPLETE SURPRISE, then we can set it up in secret or last-minute to create a spectacular surprise for your guests or even the bride and groom. Then, on cue, your guests can be ushered outside to witness a stunning fireworks display. We can even include an antique blasting machine to so you and your partner can start the display.

Finishing Touches

Fireworks are about expressing individuality. Every fireworks display is individually designed to suit location, audience size and budget.

A typical wedding display lasts approximately 3 minutes providing a sizzling spectacle for you and your guests to enjoy during your evening celebrations or as a finale to the evening – subject to venue approval and your budget!

What You Get

When you experience the art of an Eastcoast Fireworks pyrotechnic display, with the vivid colour, blended sound, intricate coordination and breathtaking finale, you experience an unforgettable evening of explosive entertainment, and all around great value.

Fire your own display

It's YOUR wedding firework display, so why not let everyone else know it using a proper "coyote and road runner" style antique blasting machine to ignite your new partnership, providing a superb photo opportunity for the bride starting the show.

During the Reception

The Bride & Groom take centre stage and both plunge the handle of antique blasting machine down together to start the display in style through a spectacular pyrotechnic experience.

Then all you have to do is sit back, relax and watch the display unfold before you & your guests

Services

Our professionally fired wedding display service includes an initial site safety inspection, show-design, a number of consents and approvals, coordination with Fire Authorities, fireworks, all materials, rigging, transport, public liability insurance, our professional services and pyro crew.

Safety

It is paramount that all the safety aspects of a display are covered professionally and thoroughly. We conduct a site survey of all venues prior to agreeing to a display at which point we start our ongoing risk assessments right up to the end of the display when we clear up of the site.

BUDGET

Your investment for a professionally fired wedding display service ranges from \$2000 + GST - up to as much as you think the day deserves.

The costs associated in providing accommodation, additional shells, equipment, barge hire will be charged out at the actual and reasonable rates.

Advance Bookings

We advise booking early to avoid disappointment as we need to plan for each event and obtain a number of written consents and approvals to conduct an outdoor pyrotechnic display.

For these reasons, it is important to arrange and book displays allowing sufficient time for these requirements to be met.
